Dear Sir:

The only dealing that Colonial Rubber has had with Artel Chemical is to purchase 1144 pounds of a chemical they made called DATU-1. We never returned any of it to them. We made our first purchase in January 1985 and the last in December 1987. We have none in stock at the present time. The MSDS sheet is attached.

The chemical DATU-1 was compounded into a proprietary rubber formula and shipped to Parker Hannifin Corporation, P.O. Box 1, Red Oak, Iowa, 51566. The formula number was 08-3000-01. The last shipment was in June 1988. The formula contained 0.48% DATU-1.

Sincerely,

Edward J. Strube
